

www.jocovafinancial.com

Jocova Financial offers financing and leasing solutions to meet the unique demands of your business. Whatever your business, whatever your strategies and whatever your objectives, Jocova is there to help drive success. Their tailored solutions give your business the financial edge to compete in today's dynamic marketplace.

Have the Benefits of Leasing your equipment work for your Business.

Low Monthly Payments

Pay convenient monthly payments as you earn profits by use of the equipment, increasing your return on investment and meeting your budgetary obligations.

Preserves Capital

Rather than spending the equipment amount, keep your money in the business for emergencies, slow times, expansion, cash flow, etc.

Possible Taxable Benefits

All monthly payments are up to 100% tax deductible.

Retain Borrowing Power

By leasing your equipment through Jocova, you do not affect your future or current ability to borrow from your own bank. Equipment leasing conserves your lines of credit and loans for other expenditures.

Limited Security & Disclosure

Leasing maintains only a security interest in the equipment on lease and has limited disclosure. Banks take a security interest on all of your company's assets and require detailed financial disclosure of your business and personal information.

Improved Cash Flow

Equipment leasing improves cash flow with no large capital outlay.

Reduces Long-Term Debt

Carry a fixed term payment stream to guarantee paying the equipment in full in the most efficient timeline possible as opposed to dragging on a loan over an extended period of time. Enjoy the security of a fixed rate.

Easy Process

Call or email us today to get started.
